## DOME HOOK - SADDLE

The Dome Hook Saddle is suited to many applications and will be right at home on the deck of your boat, around the home or in a playground.

- Can be fixed to most solid structures using 2 x 8g screws which are then neatly covered by caps
- Will not corrode, and is a minimal trip hazard due to its low profile.

Designed to be used with a hook such as the Saint® Marine Canopy Strap Hook and a 25mm webbing strap but suits some other hooks.

**Colours:** White, Black, Cement, Clay & Terracotta
